Hi Eugene,

The State RCRA program will be taking the lead regarding the Oily Wedge. The CERCLA program will continue to coordinate with them. My understanding is that the meeting on the 4th is to discuss our upcoming field activities in the canal. I look forward to seeing you there. Can you please make sure there is a call-in line.

Subject: NWOD and Wedge Remediation - Touch Base

Hi Kathy. I tried your desk earlier today and left you a voicemail. Are you available on Monday (1/28) sometime in the afternoon for a quick phone call? I'm hoping to just touch base with you on where things are at and talk a little bit about what we Chevron (and the Working Group) would like to discuss with you in our forthcoming meeting which I hear is tentatively scheduled for Feb 4.

If there is an optimal time, please let me know and I can call you. Thanks!

Eugene Pak
